

Green Ribbon Week April 20-26

Have you got yours?

The Green Ribbon is a symbol of support for Humane 'non-animal' Research.

By buying a lapel pin to wear, you will help to raise awareness about the dangers and ethical impasse caused by animal experimentation.

Many popular charities engage in animal experimentation funded by public donations. The awareness you raise can help divert money away from animal research to help sick people benefit from human relevant science, and save animal lives.

Purchase your pin by visiting our website, and view a list of 'Humane Charities' that will not use your donation for animal research. Alternatively, please call 03 9832 0752.

Together we can make a difference!
